*Awarehouse* is dedicated to the living memory and abiding presence of William H. (Hank) Wierman. The guitar and synth theme entitled *Awarehouse* is from an unfinished collaboration with Hank that began as the *Awarehouse* project some twenty-five years ago, and has been recovered, digitally restored, and excerpted for this album. Hank was a man of many names, among them Henri, Herny, Brother Brinkmann, and Happy Simpleton, and he was, as well, the originator and bestower of the Oakenhead name. He was uniquely gifted with an uncommon blend of wit, erudition, sagacity, wisdom, laughter, devotion, kindness, and adventure, with a well stacked pallet of humor from splintery rough cut to sublime. A timeless companion in exploration, journeying along kindred paths just a couple of pine trees away.
